MULTIMAX CHAIN POST SET

SET OF 6

Protect and Direct for Safer Spaces

pittman[®]

OVERVIEW

The MultiMax Delineator Chain Post Set offers a dependable solution for crowd control and access management.

This set includes six red-and-white posts connected by a 50' chain, making it ideal for guiding pedestrians and restricting access in both indoor and outdoor spaces. The flexible, weighted bases ensure stability and can absorb impacts without damage, offering long-lasting durability.

With its easy assembly and reliable performance, the MultiMax Chain Barrier Kit is perfect for use in shops, warehouses, malls, or any area where pedestrian safety is a top priority.

PRODUCT FEATURES

- Red & White Posts with 50' Chain - Guides pedestrians and restricts access effectively.
- Weighted, Flexible Bases - Ensures stability and absorbs impact for durability.
- Easy Assembly - Quick setup for versatile use in various environments.
- Indoor and Outdoor Applications - Ideal for malls, warehouses, and more.

TECHNICAL DATA

SPECIFICATION	DETAILS
Material	Polypropylene Copolymer
Color	Red & White
Height	39.37 in
Diameter	2.48 in
Base Diameter	15.74 in
Weight	8.81 lbs (per post) / 56 lbs (per set)
Chain length	590.52 in
Applications	A practical solution for creating temporary barriers in warehouses, shops, and event venues.

HEAVY DUTY BASE
Suitable for use in high winds, resistant to occasional vehicle impact

VERSATILE DESIGN
Connect chains using included chain eyes and integrated connection points

HOW IT WORKS

- 1. Assemble the Posts:** Simply screw the posts into the bases for immediate use.
- 2. Connect the Chain:** Using the connection hooks, attach the chain to the posts, either in the full or in sections as needed
- 3. Position the Posts:** Arrange the posts as needed. Detach chains and unscrew posts and bases for easy storage.
