# QCHAMP METRO STAINLESS STEEL BELT BARRIER SET

BLUE BELT - SET OF TWO

**pittman**<sup>®</sup>

## OVERVIEW

The QChamp Metro Retractable Belt Barrier Set is the perfect solution for efficiently managing indoor pedestrian flow. The stainless steel posts ensure long-lasting durability while maintaining a sleek and professional appearance.

Featuring a 10' retractable belt with multiple connection points, the posts are designed for quick and easy setup, offering complete flexibility to customize your layout. The sturdy concrete-filled base with rubber floor protectors ensures stability and prevents movement, even in high-traffic areas. The sleek design and practicality make it the ideal solution for schools, banks, hotels, airports, and other professional settings.

## PRODUCT FEATURES

- Stainless Steel Posts - Durable and professional, ensuring long-lasting use and a sleek appearance.
- 10' Retractable Belt - Covers more area with fewer posts for efficient space management.
- Concrete-Filled Base with Rubber Protectors - Provides stability and prevents movement in high-traffic areas.
- Multiple Connection Points - Offers flexibility to customize layouts for various needs.

# TECHNICAL DATA

SPECIFICATION	DETAILS
Material	Stainless Steel
Height	33.46 in
Post Diameter	2 in
Base Diameter	12.5 in
Weight	22 lbs (per post) / 44 lbs (per set)
Belt Color	Blue
Belt Width	1.89 in
Belt Length	118.11 in
Use Cases	A sleek and professional crowd control solution for banks, hotels, and event spaces.

**ANTI-RETRACTION BELT**

Integral lock prevents the belt from accidentally retracting into the post.

**STABLE & SECURE**

Rubber floor protectors ensure the posts stay in place

## HOW IT WORKS

- 1. Assemble the Post:** Start by screwing the post into the base to get it ready for use.
- 2. Connect the Belts:** The post comes pre-loaded with a 10-foot belt. To set up, simply pull the belt out and connect it to another post.
- 3. Retract the Belt:** When you are finished using the barrier, unhook the belt from the other post and gently guide it back into the post.
